Special from United Grain Growers Ltd., Livestock Department: A good many farmers and stock raisers at the present time, who have not sold their surplus stock, are wondering what effect the new United States Tariff regulation will have on the live-stock trade.

With the duty being increased approximately from 50 to 75¢ per cwt. (the old tariff was based on a straight duty of 30¢ p.c., whereas the new tariff calls for 15¢ per lb. on cattle up to 1000 pounds, and 20¢ on those over that weight) we would naturally assume that with American markets practically setting the price on our cattle that they would depreciate at least the value of the extra duty.

After considerable thought and investigation, we do not believe we are justified in taking too pessimistic a view of the situation.

The material improvement in the feed situation in various parts of the province during the past month; inquiries from Ontario for stocker cattle; and a possible strengthening of prices across the line, lead us to think that very little change in prices will be noticeable.

Eastern packers are buying heavily on Western markets, showing that supplies in their own districts are somewhat limited.

Considerable thought is also being given to the possibility of stocker cattle being shipped to the Old Country, and while rampant expenses at the present time look prohibitive, any prospect of lower rates would be immediately reflected here.

Summarizing the situation, we would strongly advise livestock raisers to fully post themselves on market conditions, as thousands of dollars have been lost to the raisers during the past few months for lack of this knowledge.

Comet Items.

The three Scotch lassies who came out from Edmonton to give an exhibition of the dances so dear to the heart of the Highlander, met with a good reception from the crowd which filled the hall. They were accompanied by a Piper w/ the kilts and sporran and a. The charming young ladies danced the Fling, Sword dance, hornpipes, reels, etc., all of which proved very interesting to quite a number present who viewed an exhibition of this kind for the first time. The general dance which followed was taken part in by about fifty couples. A dainty lunch was served about midnight. Dancing was kept up till about 3 a.m., and all dispersed after voting it having been a great night.

The High School aggregation of ball players from Stony visited Comet the beginning of the week, and kopped a game from the husky bunch of local players by 16 to 14. The Cometites seemed to experience a little difficulty in negotiating young Mr. Alf's curves. Mr. Henry Trapp umpired in a very efficient manner. After the game, the members of the Stony team were the supper guests of Mr and Mrs Murd McKinlay.

Three officers from Headquarters Military District No. 13, inspected the ranger and rifles at Comet last week. All the used and unused ammunition have been returned. It will be necessary for all members of the club to sign the official membership form which must be sent to Ottawa. The inspecting officers were greatly pleased with the entire layout and the score cards shown.

Mrs. White of Edson, who had been visiting with Mrs. Murd

LOCAL NEWS.

Mr. S. C. Star and wife returned this week from a short holiday at Watrous, Sask.

Mr and Mrs Starr of Wabamun, who spent the summer in Stony, are back for a short stay.

Our old friend, Dr. Hanna, was in town yesterday from Lac La Biche.

Chas. Gros are said to have leased a business place in Edmonton and intend going into the general store business there.

The last meeting of Stony Plain League Monday night, Oct. 16, was a success.

Miller's General Store shipped a lot of potatoes this week.

The constituency meeting of the Women's Institute will be held tomorrow, Friday, October 20, at Woodhouse.

Red Cross annual drive for members will be held this year on November 5 to 11.

Services in the Methodist Church will be held Sunday at 7.30 p.m. Thanksgiving Service will be held in the Methodist Church on Sunday, Nov. 5.

The Ladies Aid will serve the Annual Chicken Supper on Monday, Nov. 6. Further particulars later.

The new water tank for fire department about completed, and the filling of it will shortly commence.

The classes at the local school closed yesterday noon, and remain closed till Monday, to enable the teachers attend the two-day convention at Edson.

Be sure and attend the Party and Concert on October 31st, in Diabolick's Hall. Madam Zitzke, the famous Gypsy Fortune Teller will be there to tell your future.

Mr. Reece Brummet, of Hobbart, is now ahead in the potato contest, he having deposited at The Sun office on Saturday last, 2 spuds weighing 5 lbs. 2 oz., one of the spuds weighing not less than 3 lbs. 4 oz.

The High School ball team journeyed to Glory Hills last week and beat the team there by a good cricket score. The girls' team from town was not so successful as their brother sports, as the Glory Hillers won from these by a good score.

Game licences may be procured at The Sun Office.

McKinlay, returned home on Saturday morning.

A fine handsome upright piano was installed at the home of Mr and Mrs Thomas Graden, on Friday evening.

Mr Dan McKinlay has no more seed potatoes for sale. The carload he intended to ship was all spoken for locally three days after Dan's ad. appeared in The Sun. If you have something to sell, try your local paper.

Canada's Place In The World

Referring to the position which Canada occupies as a producer of wealth, F. C. Wade, Agent-General for British Columbia in London, has said:

"Canada has only one-half of one per cent. of the population of the world. She produces 50 per cent. of its cobalt, 88 per cent. of its asbestos, 85 per cent. of its nickel, 32 per cent. of its pulpwood, 20 per cent. of its lumber, 20 per cent. of its cured fish, 18 per cent. of its oats, 15 per cent. of its potatoes, 12 per cent. of its silver, 11% per cent. of its wheat, 11 per cent. of its barley, 4 per cent. of its gold, 4 per cent. of its copper."

Contemplation of the fact that with only one-half of one per cent. of the world's population, Canada is already contributing so largely to the world's wealth, coupled with the further fact that, as yet, owing to lack of population, the enormous wealth of natural resources which the Dominion possesses have barely been scratched, should convince even the most pessimistic of the great future in store for this country. These figures alone are sufficient to establish abundant confidence on the part of all.

These figures, however, only begin to tell the story of Canada's present position. Last year Canada's exports to foreign countries reached a total of \$800,000,000, and more than 50 per cent. of this total was made up of "fully or partly" manufactured goods, thus demonstrating that, to an ever increasing extent, the raw materials produced in the Dominion are being utilized in our own factories and shipped abroad in a finished or partly finished condition instead of in their raw state.

At the recent meeting of the General Assembly of the League of Nations an official declaration was made naming the six most important nations in the League, outside the Allied powers of Great Britain, France, Italy, Japan, etc., and Canada was accorded a foremost place among these six.

If this is the position now occupied in the world's estimation and in world commerce and economics by a young and only partially developed country of only eight millions of people, what a wonderful future and position awaits the Dominion when, with several times its present population, and the more complete settlement of its lands and more intensive development of its resources, its representatives sit around the council board of the world! A realization of Canada's present position, and the glowing probabilities of the future, only serve to emphasize the importance and need of now bending all our energies to the task of encouraging immigrants of the right type from all parts of the world to come and assist in the work of nation building in this Dominion. What immigration did for the United States in the last century, it can do for Canada in this century.

The late Sir Wilfrid Laurier once declared that the Twentieth Century belonged to Canada. The Great War delayed the fulfillment of that prophecy, but it was only a temporary interruption, and the final result may well be that, with careful and energetic management, the conditions following the war may be turned to Canada's advantage.

This Dominion needs immigration of a two-fold character, people and capital. Young men and women, healthy and ambitious, are required to settle on our vacant lands; youths are needed to engage in the production of wealth from our forests, our fisheries and our mines; laborers will be needed to build railways, roads and various Government and municipal works; capital is required to make such development possible and provide employment for these people. The one cannot get along without the other.

The foundation stone of all our national policies should, therefore, be the encouragement of the right type of immigrants, and the providing of all reasonable inducements and guarantees to foreign capital to engage in the task of building up a great and prosperous Canadian nation, and to this great enterprise the Canadian people, East and West, should unitedly devote their best energies.

UNLESS you see the name "Bayer" on tablets; you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Ears	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade name (registered in Canada) of Bayer Manufacture of Mono-acetic acid of Salicylic acid. While it is well known that Aspirin means Bayer, still it is not always true. The name of Bayer Company will be stamped with their general trade mark, the Bayer cross.

MOTHER!

Clean Child's Bowels with "California Fig Syrup"

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again. Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother? You must say "California" or you may get an imitation fig syrup.

Use Tractors in Yukon

Caterpillar tractors will be given their first trial in winter transportation in the Yukon next winter. The Treadwell Company, which has been using the caterpillar this summer with success, will employ the "tank" truck to haul silver ore from the Mayo mines next winter, if it proves practicable. The shipments this winter are expected to double last season's in value. Most of it is already mined and sacked.

MANY TROUBLES COME THROUGH THE BLOOD

If Kept Rich and Red Good Health Will Be Yours

Nearly all the common diseases are caused by bad blood, weak, watery blood poisoned by impurities. Bad blood is the cause of headaches and backaches, lumbago and rheumatism, debility and indigestion, neuralgia, sciatica and other nerve troubles. It is bad blood that causes disfiguring skin diseases like eczema, and rheum, pimples and eruptions. The severity of the trouble indicates how impure the blood is, and it goes all ways from bad to worse unless steps are promptly taken to enrich and purify the blood. There is no use trying a different medicine for each trouble, for they all come through the one cause—bad blood. In conditions of this kind Dr. Williams' Pink Pills have been found very beneficial, as they have a direct action on the blood, enriching and purifying it. That is why this medicine is so often successful after other remedies have failed—they reach the root of the trouble in the blood. Mr. Albert E. Gilpin, Mount Pleasant, B.E.I., tells what these pills did for him. He says:—"Some months ago I was in a badly run-down condition. My blood was poor, I had no appetite and my work left me completely tired out. I fell off in weight, was altogether in a miserable condition. I was taking medicine, but it was not doing me any good. At this stage a friend who had used Dr. Williams' Pink Pills with beneficial results, advised me to take them, and acting on his advice I did so. The result can be summed up in a few words: I took the pills for a little more than a month, when I can honestly say I never felt better in my life. I can now eat a hearty meal, do my work with comparative ease, and have gained in weight. I advise weak, run-down people to give these pills a fair trial."

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

American Lumbermen for B.C.

The placing of shingles on the free list has caused American manufacturers to look to British Columbia to establish mills, according to Seattle dispatches. One large manufacturer has announced that he will eventually dismantle four large mills now operating in Washington, and remove them to British Columbia. The position of the Americans is rendered more difficult by the fact that there is a duty of \$1.00 a thousand on logs. Vast quantities of cedar logs are annually exported to Washington and Oregon mills from British Columbia.

Britain Still Leads

Relative Strength of Shipping Tonnage of Leading Nations.

The new edition of Lloyd's Register of Shipping contains some illuminating figures on the relative strength of the shipping tonnage possessed by the various nations. The figures are really striking, and indicate that, while Great Britain has increased her tonnage only in a slight degree, the United States has made tremendous strides. The advantages gained place the latter country in a position to successfully compete with Britain for the mastery of the world's trade. If tonnage alone counted in the development of a vast commerce, the United States would be in a position to threaten the present supremacy of Britain on the sea.

There are altogether 33,935 seagoing vessels in the world, and their total tonnage is 64,370,786. Of this number, 4,680 vessels are sailing vessels aggregating 3,027,834 tons and 29,255 are steam and motor ships of 61,342,952 tons. Great Britain heads the list with 19,953,000 tons, an increase of only 176,000 tons since June, 1914; the United States comes second with 12,506,000 tons, an increase of 10,639,000 tons since 1914.

In 1914 Germany ranked second to Great Britain with 5,000,000 tons, while now she possesses only 1,782,000 tons. Norway has descended from third place to seventh, and Japan has risen from sixth to third position.

INDIGESTION, GAS, UPSET STOMACH

Instantly! "Pape's Diapiesin" Corrects Stomach so Meals Digest

The moment you eat a tablet of "Pape's Diapiesin" your indigestion is gone. No more distress from a sour acid, upset stomach. No flatulence, heartburn, palpitation, or misery-making gases. Correct your digestion for a few cents. Each package guaranteed by druggist to overcome stomach trouble.

Teaching Women to Vote

A school for women where they may be instructed in the duties and responsibilities of voting, has been conducted during the summer at Oxford, England. So many applications were received that some had to be turned away. The course made a specialty in the duties of magistrates.

Don't be afraid to speak the truth; it is harmless though not guaranteed to be especially pleasing.

Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

THE CENTRAUR COMPANY, NEW YORK CITY

Canada's Potential Wealth And What It Means To The United States

Paris-B. Russell, Vice-President of the National Bank of Commerce of New York, writes:

"Clearly, trade between Canada and the United States is vital to their material prosperity, yet despite the vital general interest in foreign trade in this country during recent years, Canada is practically ignored in current discussions of trade relations."

In the past fiscal year Canada bought of the United States three times as much as did all South America, and as much as France and Germany together. The Dominion, as a customer, is second only to the United Kingdom. Yet our second best customer is virtually ignored at Washington.

To quote Mr. Russell further: "Never before have there been two countries practically identical in speech, customs, government, standards of life and conditions of production, with 3,000 miles of boundary line, and most of them lines of trade crossing this boundary."

Consider the condition. In all history it is unique. Our publicists lament the crisis-cross lines of custom duties that divide Europe un-naturally. Yet our Washington tariff makers are heightening the indefensible wall against trade with our friendly, productive and potentially rich neighbor to the north. Let us cast the beam out of our own eye before we rail at the mote in Europe's eye.

Canada today faces a future comparable with the present of the United States. Capitalists consider it as one of the most favorable lands for investment on earth. The Government functions well, the people have character, the physical endowments are superlative. The Dominion has unmatched coast and inland fisheries, lumber that will be made a permanent asset by sensible conservation. It possesses one-sixth of the world's known supply of nickel, and still has two hundred and fifty million acres of available soil awaiting the plow. Economically Canada can become to us, what our own Great West was to our grandfathers—that and more. As for waterpower, Canada has so much that certain regions are bound some day to become great manufacturing areas.

As for agricultural competition, it no more exists than between Minnesota and Wisconsin. The experience with our Emergency Tariff of 1921 shows that agricultural prices in Minneapolis are not affected by those in Winnipeg. Between the province of Manitoba and Minnesota there is as good reason for free trade as between Minnesota and the Dakota.

Mr. Russell, with good reason, says that "a widespread understanding by the people of both countries should lead to trade policies as far removed from medieval concepts as are the three thousand miles of unguarded boundary from the exaggerated nationalism which finds expression in the unbearable burden of modern armaments."—Minneapolis Journal.

Small-Town Fire Engine

Tandem Bicycle With Pump Attachment Proves Very Efficient

What might be described as a double, tandem bicycle with four wheels arranged like those of a wagon, and four seats for riders, two in front and two behind, and carrying a hose reel, rotary pump, etc., was exhibited recently in Paris. The machine is intended as a fire engine in small towns. When the scene of the fire is reached the pedals are thrown into gear with the pump, the hose is unrolled, and the riders, resuming their seats, work the pump by means of the pedals. It is claimed that this machine can outstrip any fire engine drawn by horses on the way to a conflagration, and that its pump is at least as effective as those of the hand engines used in many towns.

Counsel—"What is your age, madam?"

Witness (hesitatingly).—"I have seen twenty-three summers."

Counsel—"How many years were you blind?"

W. N. U. 1442

The Psalm of Canada

Story of the Christening of a United Canada

The following story of the Dominion's christening is said to be authentic:

When it was decided to unite all the interests of Canada under one governor in 1867, there was much discussion as to the name under which the united government should be known. Those who met in the cabinet made different suggestions, but none was big enough. One of the members (Sir Samuel L. Tilley) read that night the 72nd Psalm, and when he came to the eighth verse he said to himself: "There is the name for Canada!" The next day he read this verse to his fellow-members: "He shall have dominion also from sea to sea, and from the river to the ends of the earth." Pointing to a map, he called attention to the geographical position of Canada, literally, from sea to sea, and from the river (St. Lawrence) to the end of the earth, as far as the earth extends. The suggestion was agreed to with one accord, and the new country has been called the Dominion of Canada ever since. No wonder Canadians call the 72nd Psalm the Psalm of Canada.

Gypsy Band in Every Village

Depth of Expression is Found in the Slav Music

Nowhere but in Hungary are found so many musicians who play without being able to read music. It is to the extent that the world owes its appreciation of the true Magyar music. Leland, the historian, says: "The Hungarian gypsy has a deeper, wider and original feeling in his music than any of his European brothers." In every village there is a gypsy band. The violin and the cimbalom are the instruments most used. The cimbalom was created by the Hungarians for the proper rendering of their music. It is used to accompany the violin. "What the band is to our Negro, the cimbalom is to the Magyar."

In her essay on "Hungarian and Slav Music," Helen Ware says: "They know music not as an algebra of black dots and dashes, but simply as a means of expressing their deepest emotions."

Didn't Have Useful Reason

"Mrs. White was late at church this morning," remarked one woman. "Yes," returned the other, "it was her way. She didn't have on anything new."—Boston Transcript.

Ble—That's the fourth umbrella I've lost in six months.

Dix—Your overhead expenses must be terrible.

Owned In Common

Fiji Islanders Work on the Commu-nic Principle

There is no private ownership of property in the Fiji. If a man wishes anything from another he asks for it and, according to Fijian custom, his neighbor must give up—whether it be pig, suit—(the native single garment that hangs from the waist) or spear.

Every Fijian is an industrious beggar. All work is done in common, and the result of the work divided equally among all. The man's house has been burned he reports to his chief that he needs a new one, and the chief assigns a certain number of men to build it.

The tribal chief theoretically owns no personal property. But he is considered to own the bodies of all members of his tribe and all their possessions. Formerly he had the power of life and death. Now, though the British have done away with this, he still controls his people's property and labor, and is their judge and administrator.

Flour in Making Watches

Use Dough for Holding Small Parts For Examination

Two barrels of flour are used every week in making watches at a well known factory, which turns out from 2,000 to 3,000 watches a week. Since a baker uses about three pounds of flour to five loaves of bread, it follows that for every watch the maker uses the equivalent of almost a third of a loaf. The flour is made into dough and the dough is used to handle screws, rivets and other small parts.

Each man in that part of the business has a lump of dough always at hand; and when he wants to examine a screw he jabs the piece of dough on it. Then, turning it over, he has a good chance to look at it with his watchmaker's microscope eyeglass. Many of the screws are too minute to pick up easily with the fingers, and many more, though large enough to be picked up, would be so covered by the fingers or the forceps as to be almost hidden from sight.

Early Electric Light Bulbs

Were Constructed With the Point of the Bulb Upward

When Thomas A. Edison first produced light by electricity all of his lamps were constructed with the point of the bulb upward, as it occurred neither to Edison nor to the men who were associated with him that any light could be handled successfully unless the flame were allowed to ascend. Although Edison genius had succeeded in producing light by electricity, the inventor's every day familiarity with the common gas jet with its ascending flame blinded him for a time to the fact that his new light could be produced with the lamp in any position.

Thus were all of the early electric chandeliers constructed in such a way that the individual bulbs could be set upright in their sockets.

Shelter Belt Planting, Live Stock Profits And Successful Farming Measures

(By J. G. Rutherford)

Every experienced feeder knows, and every farmer should know, that stock will not thrive or lay on flesh when constantly exposed to the winter winds of our western prairies. On the other hand, it is well established that if afforded adequate protection from the winds, livestock can be profitably fed to a finish in the open, even in our coldest winter weather.

I am quite aware that this statement may be questioned by persons lacking actual experience, but definite proof of its truth is fortunately available from many different sources. Reference may be made to the work in this line carried on at the Brandon Experimental Farm (especially during the Superintendency of Mr. James Murray, now District Representative at Medicine Hat for the Alberta Department of Agriculture); to the experience covering many years of Messrs. B. J. Philp, of Moosemilk, Saskatchewan; W. F. Puffer, of Lacombe, Alberta; Colonel Harry Mullins, of Winnipeg; Mr. Grayson, of Nevalde, Manitoba; and many others too numerous to mention.

Leaving the barnyard, we come to the garden, and it is surely needless to say that on the bald-headed prairie a good windbreak is essential to the well-being of the garden.

Shelter from the wind, and reasonable care, the gardens of the prairie provinces are as good as can be found anywhere. All the standard vegetables and small fruits flourish in abundance, while as for flowers, the old friendly favorites of one's childhood and the most modern varieties, as these are introduced, respond readily to the rich soil, the warm sun and the placid atmosphere of the oasis beside the shelter belt.

When properly laid out, trees also effectively prevent those vast accumulations of snow which, during the winter storms, often surround and even more or less completely cover farm buildings, thus not only saving much extra work but allowing the yards to dry out much more quickly in the spring.

When endeavoring to acclimatize field corn in Western Saskatchewan and Alberta, where, owing to high altitudes, cool nights and battering winds, it was for long difficult to obtain home-grown seed, the writer on one occasion fortunately planted a small field lying south of an excellent shelter belt of Manitoba Maple and Russian Willow. This corn did wonderfully well, producing 17½ tons to the acre, as against an average of somewhat less than 8 tons, when grown in the open.

Subsequent similar experiences led to my planting sunflowers in the corn field for shelter purposes, as the sunflower grows more rapidly than the corn, is less affected by winds and chervies, if of the right variety, a

somewhat greater height. Four rows of sunflowers were planted to every twelve rows of corn; the prevailing winds being north and northwest, the rows ran east and west. The result was very interesting, the rows of corn immediately south of the sunflowers being practically equal to them in height, with each succeeding row markedly shorter until the next sunflower shelter was reached, when the same condition was again observable. In fact the whole corn crop presented a succession of southerly slopes, divided by the strips of sunflowers.

It will be observed that without specially mentioning the fact we have got away from the buildings and into the open fields. There also the shelter belt is a most important factor, not only in protecting growing crops from unkind winds, as already indicated, but in preventing the fatal soil drifting, which, of recent years, has done such widespread and in many cases irreparable damage.

It is a much more serious and expensive undertaking to provide wind-breaks for an entire farm, than it is to plant the sheltering trees necessary to protect the small area occupied by the home buildings and garden. Nevertheless, while other agencies may also be of value, it is Nature's safest and surest way of holding things down where they belong. On many southern prairie farms it is a pressing question today and will be an even more exigent one next year and after, as to whether the forest belt shall come to the farm or the soil shall go, either on the wings of the wind, or what it will fetch, less the humus already gone.

Sorting Weeds From Wheat

New Machine That is Said to Successfully Remove Weed Seed

Weed seeds that comprise from two to 18 per cent. of the total bulk of wheat as it is harvested, are now successfully removed by a machine developed by the United States Department of Agriculture.

The new machine, called a "re-cleaner," consists of 15 aluminum disks set 2½ inches apart on a shaft rotating at 60 revolutions a minute. Each disk is slotted with a large number of undercut pockets, that act as sorters. Three sizes of pockets are used for making the separations. In operation, the fine seeds are discharged into bags on one side of the machine and the cleaned wheat into bins or wagons.

In one test, grain containing up to 38 per cent. of weed seed was passed into the machine, re-appearing as cleaned wheat, without visible traces of foreign grains.

Search For Missing Link

Expedition to South Pacific to Hunt For Tribe of Wild Men

Captain Edward A. Sallisbury, scientist and explorer, is en route for the Malay peninsula, where he will search for what has been termed in science "the missing link."

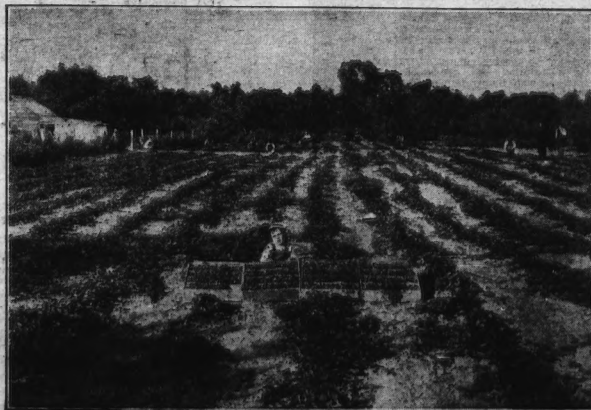

Captain Sallisbury said rumors had come across the Pacific Ocean from time to time about a tribe of wild men in the jungles of the Malay Archipelago, who had short, vestigial tails. More, the report said, their foreheads receded and their brow ridges protruded, after the manner of the neanderthal man of pre-historic prehistory. The object of the expedition is to investigate the source of these reports in an effort to find man in his most primitive form.

Age Not a Matter of Years

Age counts for much less than it did a generation ago. People do not submit so readily to the growing-old process. They are realizing more and more that youth is not a physical affair at all. The new psychology, which is quietly, but deeply, affecting human thought in many directions, is teaching man that healthy labor, cheerful thinking, and useful interests in life go a long way towards preserving fitness and freshness of body and mind.—Cape Argus (S. Africa).

Mexico at one time included all land from Panama to Vancouver Island.

PICKING STRAWBERRIES IN WESTERN CANADA IN SEPTEMBER

The above cut shows a portion of a crop of strawberries picked on the eighteenth of September, 1922, from a field of ever-bearing strawberries set

out by the Prairie Nurseries at Estevan, Saskatchewan. During the past season over \$1,000.00 worth of berries were sold from this plot and during the month of September over a dozen

crates of berries were picked. Although the blossoms had been frozen by an early frost the vines continued to bear and several more crates were picked the second week in October.

with the Author

(Continued)

Elien was delighted to hear that I had seen her illustrious namesake, and I had to describe him minutely for her edification. She speaks very good English, with a pretty accent that I wish I could reproduce in writing.

From Elien's tent we went to the cottage where lived Benjamin Little Bear with his wife, nee Mary Two Stars. Both these young people are "ex-people" of whom the Indian Department has every reason to be proud. Mr. Little Bear is a member of the staff. He is a handsome, well-built man, with a fine, noble-looking face, and she is evidently a model housewife. I wish we could have accepted her invitation to stay to tea—what a lovely story I should have had to write to the home-folk!

I am almost afraid to attempt to describe the third member of the Little Bear family. I know that I cannot do her justice. Helen Little Bear, called after Mrs. Bingham—is the most fascinating three-months-old baby I have ever seen. Mrs. Little Bear follows the good old Indian custom and keeps her small daughter in a moccasins which covers her all but her head. It made me think of the old pictures in which the Holy Child is seen "wrapped" in swaddling clothes. Wee Helen's moccasins is made of black velvet gorgeously embroidered and beaded, but neither embroidery nor beads can compare in brightness with the two black eyes that shine and twinkle above the velvet.

After Mrs. Bingham and I had praised the baby to the mother's enticement,

Backache

Backache is the outstanding symptom of kidney disease. Women often make the mistake of attributing other causes and overlook the derangement of the kidneys until serious developments have made it difficult to obtain permanent relief.

This letter points to a treatment which has been so thoroughly tried and proven so effective in the great majority of cases that you cannot afford to overlook it when cause arises for its use.

Mrs. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used two doctors' medicine previous to this, without any good results. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the second box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

W. N. U. 1442

tion, Mr. Livingstone, who had been looking on with the usual masculine assumption of superiority to such trifles, evidently thought it was his turn.

"Let's have the kid a minute," Mary said. "That's right, young lady"—this to the baby, as he took her awkwardly—"let's see what you can do in the way of a smile; if you cry, I'll drop you and run."

"Do be careful of her back, Don," cautioned Mrs. Bingham. "Gee, yes!" was the cheerful reply. "The young ones get cross-eyed or how-legged if you don't hold their backs steady, don't they, Mary?"

Mary laughed shyly, and went on talking with Mrs. Bingham but I observed that she kept one eye on the baby. That young person was having a glorious time trying to catch Mr. Livingstone's watch in her mouth, as he swung it by the chain just out of her reach, and flitting shamelessly as only a baby can flit. I was sorry when Mrs. Bingham rose to go, as I was always "respectfully" looking at babies, and this one is such a dear. I wish I could buy or steal her.

The service in the school chapel was short and simple, as was the sermon, and admirably fitted to the capacity of the children who listened to it. The singing was very good, and as we sang the old hymns I longed for a glimpse of the church at home with Father at the desk and Mother and Ralph and Helen in our other-backed chairs.

After the service was over, I met all the staff. The deaconess was very kind and pleasant, when we were talking to her about the school. Mr. McCullough, the headmaster, was very kind and pleasant, when we were talking to him about the school. Mr. McCullough, the headmaster, was very kind and pleasant, when we were talking to him about the school.

The memory of our drive home makes me shiver even now. Before we left the Mission heavy clouds had begun to pile up in the sky. Mrs. Davidson endeavored to persuade us to stay with her all night, and when the storm broke, while we were still five miles from home, I wished with all my heart that we had done so. First came a wind that seemed as if it would lift us bodily out of our seats, then sudden darkness, and then blinding flashes of lightning, followed by thunder so close that it sounded like the crashing and splintering of heavy timber. Even the horses were frightened, poor creatures! I shut my teeth hard and prayed for the rain to begin, thankful in one way for the untimely darkness that hid my fear. But when the rain began to fall, it did not bring the relief that I had hoped for; it came in torrents, and with such force that the drops smarted like steel against my face—and still the thunder and lightning continued. It was so dark that, except during the flashes of lightning, I could not see where we were going, and the fear of being lost added to my already humiliating terror. We lost no time on the road, and we were at the ford before I realized how far we had come. And I had forgotten the ford!

It was dark as the horses felt their way carefully down the bank to the edge of the water; but just as we were well into the river, the whole sky broke into a blaze, and at the same moment came a crash of thunder which was absolutely deafening. The horses stopped short in the stream, Sunny began to cry pitifully, and I felt Mr. Livingstone's hand close lightly over mine. Of course I tried instinctively to pull my hand away, even though his touch did lessen the awful feeling that was alone in the universe and at the mercy of uncontrollable natural forces; but in the deathly silence that followed the thunder he said quietly, "That's all right. Sunny doesn't like the ford either, and I always hold her hand while we cross." I hardly know how we reached this side of the river, but as soon as we were out of the water Mr. Livingstone let go my hand. If he had continued to hold it I should have known what to do, but as it was an rather puzzled, I hate to have anyone touch me, but when he did it so simply it would have been silly for me to protest, would it not? I wish I were not so great a coward where water and storms are concerned; comparison with Sunny is not very flattering to my vanity.

The storm ceased as suddenly as it began, there was no more severe thunder and lightning after we crossed the river, and long before I could sleep—I tossed in bed for half the night—the stars were shining brightly. Verily, this is a marvellous country!

(To be continued)

Women! Dye Things New in Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, stretch or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

MALNUTRITION
is the root of much weakness and hinders progress and growth.
Scott's Emulsion
the world-famous tonic-food, is the natural enemy of malnutrition and weakness.
Scott's three or four times daily, builds strength—helps drive malnutrition away.
Scott & Bowne, Toronto, Ont.

The English walnut is not English at all but originally came from China.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during his waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion, and promote healthy sleep. They are absolutely guaranteed free from opiates and may be given to the new-born babe with perfect safety. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

It keeps some men so busy being important that they haven't any time left to accomplish things.

Cold Future For Earth

Major Marriott Predicts Another Glacial Epoch in A.D. 15839
Professors and weather prophets are predicting great future changes in climatic conditions on our earth. As a rule they wisely refrain from precise predictions as to when these changes will take place. Major R. A. Marriott has been more definite. Working on the late General Drayson's theory of a big change in the inclination of the earth's axis, Major Marriott tells us that for the next four centuries the winters will grow progressively warmer, until about A.D. 2295 the difference between summer and winter will be least. Subsequently, however, the earth will get colder and colder every year, and instead of the tropical temperatures which some predict, another glacial epoch is promised by Major Marriott, the maximum severity of which will be felt by the human race—if any are left on the earth—A.D. 15839.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh loathes them much more than when they are in good health. This fact proves that Catarrh is a local disease. It is easily induced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Walked Two Miles in Sleep

Man Cycling Through Norfolk Had Extraordinary Experiences

An extraordinary case of sleep-walking is reported from Fleet, Lincolnshire. A Norfolk man was cycling through the country, and arriving at Holbeck close upon midnight, was unable to obtain lodging. Placing his bicycle against the gate, he lay down exhausted by the roadside and went to sleep.

On awakening he could not find his machine. He aroused the village constable, and learned that he had walked to Fleet, two miles away in his sleep. The bicycle was later found where he had left it at Holbeck.

A FINE SCHOOL GARDEN

A school garden of Ottawa S. D. No. 2519, near Marcellin, Sask., is shown in the above illustration. There are thirty-five plots each 10x15 feet. In planting and caring for this garden both pupils and the teacher take the greatest pride, and are well rewarded in having created one of the beauty spots of the district.

For health's sake

avoid the use of mealtime beverages which cause disturbance to nerves and digestion, often resulting in sleeplessness, headache and serious organic troubles.

When tea or coffee disagrees, try Instant Postum, the healthful, wholesome drink of tried and proven merit; no caffeine, no tannin, no harmful ingredient whatsoever.

Fragrant—delicious—satisfying.

Agreement Between Turks And The Allies Reached On All Points

Mudania.—The final agreement between the Turkish Nationalists and the Allies on all points was reached by the conference after two sessions of the delegates.

The Greeks refused to sign the convention because they were out of

What This Buffalo Physician Has Done For Humanity

The picture which appears here of Dr. Pierce of Buffalo, N. Y., was taken in 1910. As a young man Dr. Pierce practised medicine in Pennsylvania and was known far and wide for his great success in alleviating disease. He early moved to Buffalo and put up in ready-to-use form, his Golden Medical Discovery, the well-known tonic for the blood. This strength-builder is made from a formula which Dr. Pierce found most effective in diseases of the blood. It contains no alcohol and is an extract of native roots with the ingredients plainly stated on the wrapper. Good red blood, vim, vigor and vitality are sure to follow if you take this Alterative Extract. Dr. Pierce's Golden Medical Discovery clears away pimples and annoying eruptions and tends to keep the complexion fresh and clear. This Discovery corrects the disordered conditions in a sick stomach, aids digestion, acts as a tonic and purifies the blood. Write Dr. Pierce's Invalid Hotel in Buffalo, N. Y., and receive confidential medical advice without charge. All druggists sell Discovery, tablets or liquid.

They Do a Hundred Calories in About 9 $\frac{3}{5}$

EAT a box of little raisins when you feel hungry, lazy, tired or faint.

In about 9 $\frac{3}{5}$ seconds a hundred calories or more of energizing nutriment will put you on your toes again.

For Little Sun-Maids are 75% fruit sugar in practically predigested form—levulose, the scientists call it.

And levulose is real body fuel.

Needing practically no digestion, it gets to work and revives you quick.

Full of energy and iron—both good and good for you. Just try a box.

Crops Damaged by Wild Deer

London.—Thirty-two farmers in New Zealand have petitioned the Parliament of the Dominion to withdraw the act for the protection of deer, according to a Reuter dispatch from Wellington. The New Zealand minister of forests, Sir Francis Bell, K.C., estimates that the number of deer in that country is 300,000. They are doing considerable damage.

Pains in Back, Limbs and Side Yield to "Nerviline"

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline," the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It is because every drop of Nerviline rubs in because it has the ability to sink in deeply that it drives away pain that ordinary oily Liniments won't touch. Large 52c bottles at all dealers.

May Form Imperial Relations Body

Earl Page Urges Establishing Committee in London

London.—The declaration of Premier Hughes of Australia that the Dominions should have a voice in framing the foreign policy of the empire is unanimously endorsed by all critics, says a Morning Post despatch from Sydney.

Earl Page, well known member of the Australian House of Representatives, urges formation of an imperial relations committee in London consisting of Home and Dominions cabinet ministers.

Her Two Children Had Diarrhoea Terribly Bad

Anyone suffering from bowel complaints such as diarrhoea, dysentery, colic, cholera, cholera morbus, cholera infantum, or any other looseness of the bowels, will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

Mrs. Roy Keith, Charlton, Ont., writes:—"I am writing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood. I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and about one-half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children." Price, 50c a bottle, put up only by The T. Milburn Co., Limited, Toronto, Ont.

Refuse to Liberate Delorme
Quebec.—Application was rejected by Mr. Justice Dorian here for a writ of habeas corpus freeing Rev. Adelard Delorme from Beaufort Asylum, to which he was committed when found insane by a Montreal jury.

For Wider Publicity To Attract Desirable Immigrants To Canada

Ottawa.—Administration of the Department of Immigration and Colonization by a separate minister; a wider publicity scheme to attract desirable immigrants to Canada; and that the Government accept the offer of the British Government as outlined in the Empire Settlement Act of 1922, calling for joint action in securing settlers from the British Isles, were among the measures urged upon Hon. Charles Stewart, Minister of the Interior, by representatives of the transportation interests.

After the conference, Mr. Stewart intimated that the proposals would be thoroughly studied and the representatives of the transportation interests called to Ottawa. In the near future, when a definite statement with regard to the whole situation would be made.

Interests represented at the meeting included the Canadian National Railways, Canadian Pacific Railways and Steamships, Cunard Line, White Star Dominion Line, the Anchor-Donaldson Line and the Canadian Colonization Association.

Col. J. R. Dennis, in a statement on behalf of the transportation interests, made reference to the need of immigration as disclosed by the census returns, the national debt, the railway mileage and the large acreage of unutilized land, especially in the west. Immigration during the first eight months of the current year, he said, was 35 per cent. below that for 1921. The steamship companies had provided greatly increased equipment for handling immigrants, much of which was now lying idle.

Murdered!

Put right out of business, a whole family not of good honest folks, but of Corns—more, troublesome corns that sting and bite. Putnam's Corn Extract is the only painless sure relief for corns, it never fails, 25c everywhere.

Ottawa Sends Aid to Sufferers

Ottawa.—The Government on behalf of the people of Canada, has granted \$100,000 toward the relief of the victims of the fire ravaged areas of Northern Ontario. This announcement was made by Hon. George P. Graham, Minister of Militia, on instructions from the Premier.

Manitoba Farmers to Meet at Brandon

Winnipeg.—Announcement is made that the annual convention of the United Farmers of Manitoba will be held in Brandon, Jan. 9 to 12 inclusive. A four-day convention is a new departure for the organization. It is announced that the preferential ballot will be used in the election of officers.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-eaten infant.

Northern Ontario Fire Loss Heavy

Toronto.—Fifteen adjusters of fire insurance claims left this city for Northern Ontario to adjust the claims in the burned district. It is estimated that \$5,000,000 will be paid out in fire insurance in the devastated area in a few days.

Street Cars House Homeless

Toronto.—Eighty-seven old Toronto railway cars, which have been lying here unused, were sent to Halleybury to be used as shacks for those rendered homeless by the recent fires in that section.

DO WOMEN WORK AS HARD AS MEN?

Yes. And They Must Keep Well and Strong

Two Interesting Letters

Toronto, Ontario.—"When my husband was called back to England in 1914 I took Lydia E. Pinkham's Vegetable Compound to strengthen me so I could work. I had a trouble that used to make me weak, but I am able to do my work now and am perfectly satisfied with your medicine. I still get it at the chemist's and I strongly recommend it to anybody I hear of suffering as I did. You may publish this if you wish."
—Mrs. E. HOSKINS, 899 Yonge St., Toronto, Ontario.

I Did Not Feel Like Working

"I was in a general run-down condition with weak back and a tired feeling so that I did not feel like working. My mother was taking Lydia E. Pinkham's Vegetable Compound and recommended it to me, so I have taken it and my back is better and I am now able to do my work. I recommend the Vegetable Compound to my neighbors and you may publish my letter."
—Mrs. JOSEPH A. GERRARD, Box 47, Carbon, Alberta.
Lydia E. Pinkham's Vegetable Compound should be taken when you first notice such symptoms as nervousness, backache, weakness and irregularity. It will help you and prevent more serious trouble. Give it a fair trial.

Spruce Grove News.

A number of the residents
of Spruce Grove and vicinity
met recently and organised a
Community League, with mu-
tual improvement and suit-
able entertainment for the
community as its avowed ob-
jective.

An encouraging member-
ship was enrolled at the first
meeting, and the following
officers elected:
President—Geo. E. Martin.
Vice Pres., Mr. Sherwin.
Secretary-Treas.—Miss Mc
Laughlin.

Meetings will be held at
Spruce Grove on the first and
third Fridays of each month
at 8 p.m.

A course of lectures and
entertainments from the Ex-
tension Department of the
University of Alberta is plan-
ned for the winter, and it is
hoped that the movement
will prove to be a source of
benefit and pleasure to the
entire community.

The opening program will
be given on Friday evening,
October 20, when Mr. Clough,
President of the Federation
of Leagues, will speak on "Com-
munity Leagues"; and Mr.
Brown, of the Department of
Extension, will provide moving
pictures.

Municipal Hospitals.

"There seems to be no doubt
that the Municipal Hospitals of
Alberta will become permanent
establishments in the life of the
Province." This quotation is from
the Canadian Red Cross magazine,
and that paper points out that
"the work is illustrated of what
an enlightened province can do
in order to provide for the neces-
sary medical and nursing needs of
the people living in districts at
great distances from the services
which are afforded by towns and
cities."

A HARD ROW TO HOE

may prove to be a rich row to harvest. Of all
the many classes that go to make up the strength
of Canada, the farmer appreciates best the value
of patience and industry and the importance of
thrifty living. With courage and determination
he turns hard rows into fruitful ones and barren
acres into rich soil.

This Bank knows the farmer, his problems and
difficulties, and knows how to serve him in a
practical manner.

We shall be pleased to have you consult with our
nearest Branch.

BANK OF MONTREAL

Established over 100 years

Stony Plain Branch: D. McDONALD, Manager

Red Cross Campaign.

Arrangements have been made
to hold the Annual Red Cross
Drive for membership from Nov-
ember 5 to 11.

The Red Cross has been doing
a wonderful work since the war
which is plainly evident on every
hand. Funds are the one essential
in a work of this kind, and the ob-
ject of the campaign is to raise
enough money to tide the Red
Cross of Alberta over for another
year.

At the present time there are
115 locals of the association in Al-
berta, and in addition there are 88
active Red Cross Committees. Ar-
rangements are being made to or-
ganize another 200 working com-
mittees for the campaign next
month, when everybody in Alber-
ta will be asked to join, the an-
nual membership fee being One
Dollar.

Things Looking Up.

Shoe manufacturers say they
may have to raise the price of
footwear because hides are costing
the tanners twice what they did
a year ago. At that rate, the far-
mer must be getting as much as
fifty cents for a cowhide.

Road-making Material.

The Research Department of the
University of Alberta has found a
process by which a large propor-
tion of the sands in the Athabasca
tar sands can be removed, and the
bituminous tar residue becomes a
commercial commodity for ship-
ping and ready use for road mak-
ing and other purposes. American
capital has been secured to open
and develop the Butterfield iron
ore deposits discovered about a
year ago on the shores of Lake
Athabasca.

THE AMOUNT OF THAT CHEQUE**

We have made arrangements with the E. H. Heath Co. Limited who
publish the CANADIAN FARMER whereby we are able to
offer that form magazine together with our own weekly at the one
price for both papers.

The CANADIAN FARMER is West-
ern Canada's biggest farm monthly. It is now
in its twentieth year which means that it is
thoroughly established throughout the West.
It deals with the mechanical side of the farm.
Every issue is full of helpful hints and ex-
periences on the operation of all kinds of farm
machinery from a washing-machine to a trac-
tor. Its editorial staff consists of men thor-
oughly familiar with every branch of farming
both from the practical and theoretical stand-
point. Every month the magazine publishes
experiences sent in by readers. Many of these
are short but findings that are real money
savers to farmers.

This offer may be withdrawn at any time.
Without doubt your intention is to receive for
this weekly, then why not take advantage now.
Your subscription to this weekly together with a
year's subscription to the CANADIAN
FARMER for the same price as this
weekly alone. This is where you get the \$1.50.

Mr and Mrs Davis and

family spent Sunday with Mrs H Mackinnon.

Quite a number of the Holborn boys are talking of going to the mountains this winter and look for oil. As per usual, they'll merely trade their cash for experience, while prospecting.

Mr R Berry spent Sunday at the home of Mr and Mrs J A Duval.

Chicken season opened on Monday last with a great banging of guns, and great was the slaughter. Still, there's a whole lot of perfectly good ones left.

A few of the Holborn sports took in the Comet dance on Friday night, and of course had a good time.

Mary had a little dress which she could scarcely see. It started just about her waist and ended at her knee.

Lecture on Sunday Afternoon

Mr C W Branscombe, of Edmonton, will lecture in Ducholke's Hall on Sunday next, at 3 p. m., under the auspices of the International Bible Students' Association,

continuing the series of addresses being presented upon Bible topics. His subject will be "What Is a Christian?" A clear explanation of the Christian standard, duties and reward will be given. A Bible truth long misunderstood. Seats free. No collection.

Stony Plain and District

The Twickenham Jeweler has closed up shop and moved back to Edmonton. The place has been opened as a barber shop by those two live birds—Joe and Henry.

Members of the Women's Institute are to meet at the Drug Store at 1:30 p. m. Tomorrow, Friday, the 20th, as the cars leave promptly for Winterburn.

A bunch of sports headed by H H Myers came down from Jasper yesterday and spent the day hunting chicken.

Mr O. Dandahauer, well known here, has moved from Vauxhall B. C. to Copper River B. C.

Messrs Moldenhauer and C. Bower of Duffield, were in town on Saturday; and W J C Macanlay, Gibbons, was a Sunday visitor.

Rev. C. Reppert, of Glory Hills, took part in the recent Thanksgiving and mission service at the Josephbury Reformed Church. Mr. Reppert gave an address and Mrs. Reppert contributed to the musical program.

Mrs Elizabeth Trout will hold a sale Tuesday next, October 24, at her place northeast of Stony Plain—Stock, implements and household goods.

Farmers are complaining that it is too dry to continue plowing operations.

A farmer of the Rocky Rapids district, a neighbor of Mr Bosserman's, was taken into custody last week by the police, charged with threatening. He is now in Edmonton, awaiting the result of an examination.

A Halloween Party is being held in Ducholke's Hall on Tuesday evening, October 31st, beginning at 8 o'clock sharp. All High School Students and adults are invited to attend. Admission free. A small charge for supper and side shows.

The recent high winds have fanned up the brush fires in the various districts, and some damage is reported as a result.

The weekly paper at Edson has ceased publication, after a five-months' trial, and Brother Brace is arranging to move out his plant.

Edmonton City Council proposes passing a Curfew Law, keeping children 13 and under off the streets after 9 p. m.

Northern Saskatchewan will only have 70 per cent of the potatoes it had in 1921, but the quality is better.

Alberta Winter Fair, combined Auction Sales of Beef and Dairy Cattle, Sheep and Fat Stock, at Calgary, November 6 to 11. Prize List may be seen at Sun Office.

Dr Fridt, Dentist, will be at the Royal Hotel on Saturday, Oct. 28.

The Canadian Power Farmer, Winnipeg, will answer any question pertaining to the practical operation and application of power machinery on the farm. Try it out! This service is free!

All your little social announcements and intimations, your comings and goings, make good reading, and will be welcome in The Sun's news columns.
